Dear Dr. Rusk:

Just before Mr. Dulles left his office for a trip out of the city, he asked me to acknowledge and thank you very much for your letter of 24 October and for the enclosed material on the World Rehabilitation Fund, Inc.

Mr. Dulles wanted you to know that he appreciated your thoughtfulness in making this available to him and I have taken the liberty of forwarding it to some of our people here for their information and further study.

Sincerely,

SIGNED

Executive Officer

Dear Howard:

Many thanks for the material on the World
Rehabilitation Fund, Inc., which you were so
thoughtful to send me.

I have looked this over with interest and
have forwarded it to some of our people here who
I am sure will also find it interesting.

With best wishes,

Sincerely,

Allen W. Dulles
Director

WORLD REHABILITATION FUND, INC.

Projects

July 1, 1960 - June 30, 1961

During the 1960-1961 academic year full or partial fellowships were provided for 55 trainees (39 physicians and 16 non-physicians) for long-term advanced training in rehabilitation in the United States from Australia, Belgium, Brazil, Colombia, Denmark, Egypt, France, Free China, Greece, Haiti, Iceland, India, Iran, Israel, Japan, Kenya, Korea, Lebanon, Mexico, Nicaragua, Nigeria, the Netherlands, Panama, Peru, Portugal, the Philippines, Spain, Sierra Leone, Venezuela, Viet Nam and Yugoslavia.

Included in the above were the following name fellowships:

A Pfizer Fellowship in Rehabilitation for advanced study in the United States - Dr. Maria da Graca Campos Andrada, Portugal.

A Pfizer Fellowship in Rehabilitation for advanced study in the United States - Dr. Haroldo Campos Guimaraes, Brazil.

A Smith Kline & French Fellowship in Rehabilitation for advanced study in the United States - Dr. Leobardo Ruiz, Mexico.

A Sinclair Oil Corporation Fellowship in Rehabilitation for advanced study in the United States - Dr. Gilberto Montenegro, Venezuela.

A Sinclair Oil Corporation Fellowship in Rehabilitation for advanced study in the United States - Dr. Jorge Dao, Venezuela.

A Sinclair Oil Corporation Fellowship in Rehabilitation for basic and professional training in physical therapy in the United States - Mrs. Anna Krinitzky, Venezuela.

The Donald Dabelstein Memorial Fellowship for advanced study in special education of handicapped children - Professor Branko Bajic, Yugoslavia.

A Betsey Barton Fellowship in Rehabilitation for advanced study in the United States - Dr. B. Adebajo, Nigeria. The Fellowship was made possible through a contribution of Aaron E. Norman Fund, Inc.

A Betsey Barton Fellowship in Rehabilitation for clinical training in physical therapy in the United States - Miss Lien Thie Doan, a nurse, Viet Nam. The Fellowship was made possible through a contribution of Aaron E. Norman Fund, Inc.

A Merck Sharp & Dohme International Fellowship in Rehabilitation for advanced study in the United States - Dr. Murk Schaap, the Netherlands.

- 2 -

The Bell Greve Memorial Fellowship in Rehabilitation for advanced study in the United States - Dr. Carlos Mora-Mora, Colombia.

The Frank H. Rowe Memorial Fellowship in Rehabilitation for advanced study in the United States - Dr. D. Dowie, Australia. The Fellowship was made possible through a contribution of the Smith Kline & French Foundation.

The American President Lines Fellowship in Rehabilitation for advanced study in the United States - Dr. H. Ishida, Japan.

The Charles Poore, Jr. Memorial Fellowship in Rehabilitation for advanced study in the United States - Dr. Mary Verghese, India. The Fellowship was made possible through a contribution of IBM World Trade Corporation and Mrs. David M. Heyman.

The William J. Donovan Memorial Fellowship in Rehabilitation for advanced study in the United States - Dr. Hong Kun Lee, Korea.

The Crown Zellerbach Foundation Fellowship in Rehabilitation for advanced study in the United States - Dr. Radha Mohan, India.

A Reader's Digest Fellowship in Rehabilitation for advanced study in the United States - Dr. Jose Suescun, Spain.

A Reader's Digest Fellowship in Rehabilitation for advanced study in the United States - Dr. Takeo Hara, Japan.

The Dr. Simon Baruch Memorial Fellowship in Rehabilitation for advanced study in the United States - Dr. Guillermo L. del Castillo, the Philippines.

A three-month fellowship was awarded to a physician from the Philippines for advanced study of rehabilitation in the United States (Dr. Abelardo M. Inocentes).

A fellowship was given to a physician from Haiti for four weeks advanced study in the United States (Dr. Jean Bourand).

A five-month fellowship was awarded to a physician from Mexico for advanced study of rehabilitation in the United States (Dr. Ramon Brea Messina).

Fellowships for three months' advanced study in the United States were provided for an administrator and a teacher of the blind from Haiti (Miss Thelma Bryan and Miss Anna Bernard).

A partial tuition fellowship was awarded to a physical therapy student from Haiti (Miss Ginette Dreyfuss).

- 3 -

An American Express Company Fellowship was created for advanced training in the United States for a physician from Pakistan.

Through a grant from the Aaron E. Norman Fund two Betsey Barton Fellowships for training in the United States were created for rehabilitation trainees from Africa and Asia.

A Pfizer Fellowship in Rehabilitation for advanced training in the United States was created for a physician from another nation.

Through a contribution from the General Dynamics Corporation the publication "Understanding Aphasia" was translated into Portuguese for distribution in Brazil and Portugal.

A Crown Zellerbach Fellowship in Rehabilitation for advanced training in the United States was awarded a physician from Mexico.

A Merck Sharp & Dohme Fellowship in Rehabilitation for advanced training in the United States was made available for a physician from India.

A Merck Sharp & Dohme Fellowship in Rehabilitation for advanced training in the United States was created for a physician from another nation.

The Arde Bulova Memorial Fellowship for advanced training in the United States was created for a physician from another nation.

Reader's Digest Fellowships for advanced training in the United States were created for physicians from France, Italy, Mexico and Brazil.

A Revlon Fellowship in Rehabilitation for advanced training in the United States was created for a physician from Argentina.

A Rebecca B. Rose Memorial Fellowship for advanced training in the United States was created for a physician from another country.

Through a grant from the Gustavus and Louise Pfeiffer Research Foundation a Matthew G. Harold Memorial Fellowship for advanced training in the United States was created for a physician from another nation.

An Anheuser Busch Fellowship in Rehabilitation for advanced training in the United States was created for a physician from Germany.

The International Seminar on Special Education, held at West Point, N.Y., August 25-27, 1960, was supported by the World Rehabilitation Fund through a grant from Lilly Endowment, Inc.

Equipment, supplies and services of a French-speaking bracemaker were provided to conduct a seven-week training program in Port-au-Prince for 6 Haitian bracemakers.

- 4 -

A grant was given for physicians from Nicaragua, Nigeria and Sierra Leone to attend the Third International Congress on Physical Medicine in Washington, August 21-26, 1960.

A grant was given to 21 international trainees to attend the American Orthotics and Prosthetics Association's Assembly, New York City.

Tuition fees for the Third International Prosthetic Course, held at New York University Medical Center in August, 1960, were paid for 30 physicians, therapists and prosthetists from Brazil, Turkey, Chile, Mexico, Denmark, Greece, India, France, Australia, Portugal, Guatemala, Canada, Lebanon, the Netherlands, Free China, the Philippines, Colombia, Yugoslavia, South Africa, Argentina and Japan.

Travel grants and maintenance were provided for a physician from Venezuela undertaking long-term post-graduate training in the United States to attend a seminar on Hansen's Disease (leprosy) at the U.S. Public Health Service Hospital, Carville, Louisiana and at Johns Hopkins University, Baltimore, Maryland.

A travel grant was given for an orthotist from Lebanon to attend a brace-making course in Copenhagen, Denmark.

A fellowship for one month was awarded to a medical worker from the Congo to observe at the Institute of Physical Medicine and Rehabilitation.

A fellowship for two months was awarded to a psychologist from Poland.

The services of a Spanish-speaking brace-making instructor were provided for consultation services in Guatemala, Costa Rica and Panama and to conduct a short course for four trainees in Nicaragua.

A partial fellowship was provided for a social worker from India to undertake advanced training in rehabilitation in the United States.

A partial tuition fellowship was awarded to a physical therapy student from Israel.

A grant was made to the Haitian Association for the Handicapped to maintain the hostel for children living outside of Port-au-Prince receiving rehabilitation services at the St. Vincent's School.

A travel grant was made to an American physical therapist to serve as a consultant for one year at the Rehabilitation Center "Les Charmiles" in Valenton, France.

Tuition fellowships to attend the International Post-Graduate Cerebral Palsy Course given at the Institute for the Crippled and Disabled were provided a physician from Brazil and a physical therapist from Trinidad.

A grant was made to the Christian Approach Mission, Villa Salem, Beit Lahm, Hashemite Kingdom, Jordan.

- 5 -

A grant was made to Comeback, Inc. to assist in financing the production and international distribution of a motion picture on therapeutic recreation.

A grant was made to assist in the financing of a children's rehabilitation center being developed by the International Union for Child Welfare, La Paz, Bolivia.

A travel grant was made to an American social worker for work-experience in social service in rehabilitation of physically handicapped in France.

A gravel grant was made to a French occupational therapist to come to the United States for advanced training at the Kennedy Memorial Hospital in Boston.

Rehabilitation Bookshelves in French, English and Spanish were provided rehabilitation centers in Haiti, Brazil, Peru, Costa Rica, Puerto Rico, France and Chile.

A grant was made to support the publication of the book "Special Education on Physically Handicapped Children in Western Europe", by Drs. Wallace W. Taylor and Isabelle Wagner Taylor by the International Society for Rehabilitation of the Disabled.

A grant was made to provide two experts, one from the United States, to attend a conference on rehabilitation of patients with leprosy, held at Christian Medical College, Vellore, India, November, 1960, under the auspices of the World Health Organization, the International Society for Rehabilitation of the Disabled and Leonard Wood Memorial.

Two American experts were provided for consultation services on the development of rehabilitation services in Iran, Turkey, Lebanon, Israel, Greece and Yugoslavia in November, 1960.

Grants were made for program support of the International Society for Rehabilitation of the Disabled.

An American expert was provided to attend the Fourth International Prosthetic Course, July 3-15, 1961, Paris, France.

A grant was made, in cooperation with the Reader's Digest Foundation, to the International Society for Rehabilitation of the Disabled to create the Reader's Digest Foundation International Awards in Rehabilitation to be presented at the 9th World Congress, International Society for Rehabilitation of the Disabled, Copenhagen, Denmark in June, 1963.

With the cooperation of the George and Margarita Delacorte Foundation, a grant was made to the International Society for Rehabilitation of the Disabled to publish the proceedings of the Eighth World Congress of the International Society.

Registration fees were paid and housing provided for a number of delegates from outside of the United States to attend the Eighth World Congress of the International Society for Rehabilitation of the Disabled held in New York in August, 1960.

- 6 -

An American expert was provided for consultation in rehabilitation services in Haiti, July, 1960.

An American expert was provided for consultation in rehabilitation services in Mexico, July, 1960.

An American expert was provided for consultation in rehabilitation services in Brazil and Peru, November 10-25, 1960.

An American expert was provided to attend the International Conference of Social Work in Rome in January, 1961.

Two American experts were provided for consultation in rehabilitation services in Puerto Rico, February 24 to March 2, 1961.

A travel grant and a portion of expenses were provided to an American physical therapist to serve as a consultant to the Lionel Cooper Hospital in Valparaiso, Chile, in March, 1961.

An American expert was provided for consultation in volunteer services in Peru, Chile, Argentina and Brazil in the spring of 1961.

An American expert was provided for consultation in rehabilitation services in El Salvador, Nicaragua and Costa Rica in March and April, 1961.

An American expert was provided for consultation in rehabilitation in Mexico, March 22 through March 26, 1961.

An American expert in electromyography as related to rehabilitation was provided for consultations and conferences for rehabilitation centers in Spain, Denmark, Italy, England and Portugal.

The services of a Spanish-speaking instructor in brace making were provided to install equipment, provided by CARE, for a new brace shop at the St. Vincent's School for the handicapped, Port-au-Prince, Haiti, and used prostheses and prosthetic supplies were provided the School.

Subscriptions to professional literature were provided to rehabilitation centers in Korea, Haiti, Venezuela, Puerto Rico, Cuba, Argentina, El Salvador, Colombia, Guatemala, Chile, Spain, Poland, Brazil, Lebanon, Bolivia, the Philippines, Burma, Ireland and South Africa.

Books, monographs and professional publications were provided to foreign physicians and sent to rehabilitation centers in Egypt, Belgium, Australia, Brazil, Japan, Iran, Korea, Jamaica, Yugoslavia, India, Colombia, Lebanon, the Netherlands, Italy, Finland, the Philippines and Poland.

- 7 -

Rehabilitation equipment and new brace components were provided to the National Orthopedic Hospital, Manila, the Philippines.

In cooperation with the National Orthopedic Hospital in Manila, two upper extremity prostheses were provided a nine year old girl in the Philippines who has congenital shoulder disarticulations.

Rehabilitation equipment was provided to a rehabilitation center in Burma.

Prosthetic supplies were provided to the new brace shop at American University in Beirut, Lebanon.

Rehabilitation equipment was provided to the Lionel Cooper Hospital, Valparaiso, Chile.

A shipment of used artificial limbs and braces was provided for a new rehabilitation center started in Nicaragua.

Two model braces and a supply of new orthotic parts were provided to a children's center in Jordan.

Two prostheses were provided to two double extremity amputees in Chile.

In cooperation with the Committee for the Handicapped, People-to-People Program; Veterans Administration; Office of Vocational Rehabilitation, Department of Health Education and Welfare; CARE; Catholic Relief Services - National Catholic Welfare Conference; Church World Service and the American Korean Foundation, approximately 6,000 used but serviceable artificial limbs and braces were shipped to rehabilitation centers in Korea, the Philippines, Haiti, Pakistan, Chile, Peru, Greece, Italy, Ecuador, India, Egypt, Iran, Yugoslavia, Costa Rica, Israel and Turkey.

The World Rehabilitation Fund acted as the agent for the purchase of equipment, provided some equipment, and paid the shipping costs for all equipment for new brace shops for the Central Military Hospital and the Hospital San Juan de Dios in Lima, Peru.

The World Rehabilitation Fund acted as the purchasing agent for the purchase of equipment for a prosthetic shop and a rehabilitation center for the Caja Nacional de Seguridad Social, La Paz, Bolivia.

Report of the President to the Board of Directors of the
WORLD REHABILITATION FUND, INC.

October 18, 1961

The fiscal year ending June 30, 1961, was the fifth full year of operation for the World Rehabilitation Fund, Inc. During the year the World Rehabilitation Fund suffered a great loss through the death of our fellow Board members Walter Bedell Smith and Harry D. Henshel, Sr.

At the annual meeting, held in December 1960, the undersigned was re-elected President; Mr. Eugene J. Taylor was re-elected Secretary-Treasurer; and Mrs. Mary Lasker, Mrs. Anna Rosenberg, Mr. John S. Allard, your President and your Secretary-Treasurer were re-elected to the Executive Committee. At the meeting Mr. Oscar Getz and Mr. Louis R. Lurie were elected to the Board of Directors, and at a subsequent Executive Committee meeting, it was voted to extend an invitation to William P. Shepard, M.D., to become a member of the Board.

Program

The provision of fellowships for physicians and other rehabilitation personnel to come to the United States for long-term advanced training continued to be the major activity of the World Rehabilitation Fund. During the 1960-1961 academic year full or partial fellowships were provided for 55 trainees (39 physicians and 16 non-physicians) for long-term advanced training in rehabilitation in the United States from Australia, Belgium, Brazil, Colombia, Denmark, Egypt, France, Free China, Greece, Haiti, Iceland, India, Iran, Israel, Japan, Kenya, Korea, Lebanon, Mexico, Nicaragua, Nigeria, the Netherlands, Panama, Peru, Portugal, the Philippines, Spain, Sierra Leone, Venezuela, Viet Nam, and Yugoslavia.

The number of trainees during the year was somewhat less than in previous years due to the new regulations of the Educational Council for Foreign Medical Graduates which require that all physicians coming to the United States for post-graduate training have their credentials evaluated and successfully pass an examination of professional and English language competency. The number of trainees for the 1961-1962 and 1962-1963 academic years, however, will be substantially greater than during the 1960-1961 academic year.

One major highlight of the year was the Eighth World Congress of the International Society for Rehabilitation of the Disabled (formerly Welfare of Cripples) held in New York in August-September, 1960. Over 4000 persons from 71 nations attended the meeting making it the largest of such international meeting ever held. The World Rehabilitation Fund provided both financial and program support for the Congress and for the Third International Prosthetic Course held at New York University, and the International Seminar on Special Education held at West Point just prior to the Congress.

- 2 -

Your President served as President of the Congress and your Secretary-Treasurer as Chairman, Committee on Public Relations, and Editor of the Congress Proceedings. Dr. Kessler and Mr. Mayo served as Co-Chairmen of the Program Committee. Other members of the Board, particularly Mrs. Bernard F. Gimbel, Miss Mary E. Switzer, Mr. Robert K. Haas, and Mr. Thomas D'Arcy Brophy, played major roles in the Congress.

Miss Switzer was one of the three recipients of the Albert Lasker Award in International rehabilitation provided by the Albert and Mary Lasker Foundation.

Through funds made available by the George and Margarita Delacorte Foundation, the World Rehabilitation Fund made a grant to the International Society for Rehabilitation of the Disabled for the publication of 40,000 copies of the Congress Proceedings. With funds made available from the Lilly Endowment, Inc., the World Rehabilitation Fund made a grant to the International Society for Rehabilitation of the Disabled for publication of the proceedings of the International Seminar on Special Education.

Another significant new program development was the launching of a project through which used but serviceable artificial limbs and braces are contributed by individuals and organizations in the United States and sent to other nations where such items are greatly needed. Working in cooperation with the Committee on the Handicapped, People-to-People Program; Veterans Administration; Office of Vocational Rehabilitation, Department of Health, Education, and Welfare; CARE; Catholic Relief Services - National Catholic Welfare Conference; American Korean Foundation; and Church World Service, the World Rehabilitation Fund has provided the program leadership and administrative services for this program in which approximately 10,000 used but serviceable artificial limbs and braces with a value of \$750,000.00 have been sent to 21 nations.

In July-August, 1960, a French-speaking Spanish prosthetist-brace maker was provided to teach a seven-week course for six brace-making trainees in Haiti. In June, 1961, he returned to Haiti to supervise the installation of a new braceshop provided by CARE for the St. Vincent's School for the Handicapped and to instruct the staff in its use.

During the year equipment and/or professional publications on rehabilitation were provided for programs in Haiti, Nicaragua, Venezuela, Jordan, Bolivia, Korea, El Salvador, Argentina, Colombia, Guatemala, Chile, Spain, Poland, Brazil, Lebanon, the Philippines, Burma, Ireland, South Africa, Mexico, Egypt, Belgium, Australia, Iran, Japan, Jamaica, Yugoslavia, India, the Netherlands, Italy, and Finland.

Short-term fellowships for study in the United States were awarded to physicians from the Philippines, Haiti, Brazil, and Mexico; an administrator and a teacher of the blind from Haiti; a medical technician from the Congo; a psychologist from Poland; a physical therapist from Trinidad; a social worker from India; and partial tuition fellowships were provided physical therapy students from Israel and Haiti.

With funds made available from the Lilly Endowment, Inc., the World Rehabilitation Fund made a grant to the International Society for Rehabilitation of the Disabled for the publication of the 497 page book "Special Education on Physically Handicapped Children in Western Europe" by Drs. Wallace W. Taylor and Isabelle Wagner Taylor.

- 3 -

During the year your President visited and provided consultation services in Greece, Iran, Jordan, Turkey, Lebanon, Israel, and Yugoslavia, and your Secretary-Treasurer visited and provided consultation services in Haiti, Mexico, Brazil, Peru, Portugal, and Italy. Assistance was provided other American experts in rehabilitation to provide consultation services in Chile, Peru, Argentina, Brazil, Yugoslavia, Iran, Turkey, Lebanon, Greece, Israel, Costa Rica, Nicaragua, El Salvador, France, Jordan, Spain, Denmark, Italy, England, and Portugal.

During the year the World Rehabilitation Fund participated directly or indirectly through grants or purchases of equipment in the establishment of a prosthetic shop, and a rehabilitation center for the Caja Nacional de Seguridad Social, La Paz, Bolivia, and for brace shops of the Central Military Hospital and Hospital San Juan de Dios, Lima, Peru.

Finances

During the year the Fund had income from contributions and other resources of \$254,902.07. The Fund started the fiscal year on July 1, 1960, with a balance of \$24,946.28, and ended the fiscal year on June 30, 1961, with a balance of \$63,413.18. Disbursements during the year totalled \$216,488.89. Not included in the financial statement or the above figures were the contributions of used braces and prostheses and other rehabilitation equipment valued at \$750,000.00.

Administrative and fund-raising expenses during the year totalled \$15,016.96 or 6% of total income. The Fund, however, received from the Albert and Mary Lasker Foundation a contribution specifically given to meet a portion of these expenses. Total fund-raising and administrative costs, therefore, represent about 3.5% of other cash income. If contributions of "goods in kind" of \$750,000.00 is included as income, total income was \$1,004,902.07. Thus fund-raising costs and administrative costs were 1.4% of total income in both cash and "goods in kind."

Not reflected in the above is the World Rehabilitation Fund San Pablo Fund of Philippine pesos contributed by General Foods Corporation to support the San Pablo Rehabilitation Center. This fund balance was 184,214.22 Philippine pesos at the beginning of the year and 178,091.22 Philippine pesos at the end of the year. During the year, 4,524.00 Philippine pesos accrued to the fund through interest and expenditures were made of 10,697.00 Philippine pesos. The official exchange rate for 1 Philippine peso was \$.4992 at June 30, 1961, and \$.45 at June 30, 1960.

Summary

The fiscal year ending June 30, 1961, was the most successful year in the history of the World Rehabilitation Fund both in income and in activities. Your President expresses his deep gratitude to his fellow members of the Board of Directors, the Fund staff, our contributors and the agencies and organizations who made these achievements possible.

Respectfully submitted,
